

An Overview of How Exact Scientific Services Provides a Higher Standard of Laboratory Testing

Promise: To provide a higher standard in Laboratory Testing to Help Clients Succeed through Safe, Compliant, and Profitable Products.

Mission: To Serve Food, Nutraceutical, Environmental, Agriculture, and Other Clients with:

- Chemistry and Microbiological Testing and Compliance
 - Safe new/existing products for consumer protection, avoidance of legal and regulatory issues
- Testing Interpretation
 - Objectively validates products are what they say they are
- Industry Resourcing and Client Education to Assist with Product Marketing
 - Certifications and product development
- Analysis and Critical Control Points (HACCP) Programs and Documentation
 - Why and how testing is done, safety and compliance issues, legal ramifications, product profitability

Hallmarks and Competencies: To Be a Uniquely Accurate and Reliable Testing Partner, Beyond Testing Results

Accurate - ISO 17025 and Other Key Certifications and Proficiencies: You are assured each sample is tested under strict SQF, BRC, FDA, dietary supplement, environmental and agricultural guidelines...

- One of the select few ISO17025 certified microbiology/chemistry test labs
- ISO WA lab certified for USP methods for supplement companies, rancidity/fatty acid profile testing, and protein
- ACLASS, WSDOE, MAP, AOCS, API, Phenova, and NAPT status
- Samples tested when received and not held for batch testing.
- Staffing with over 40 years' experience in analytical methods

Reliable - One to Five Day Results for All Standard Testing: You can count on fast turnaround, after hours testing, 365 days/year availability and results delivered in a timely manner...

- Samples placed in their queue, and analysis started, the day of delivery
- Use of advanced technology and analytical methodology
- Out of area samples often received within 24 hours at ground rate due to location next-door to-UPS; local deliveries
- Results available via email and online (secured basis) the day testing is completed

Testing Partner - With Your Needs and Budgets in Mind: You can expect us to go beyond testing and be a resource to help troubleshoot, develop profitable products, and work on a personal basis to meet your unique needs and budgets...

- A personal team that connects clients to experts, not machines
- 365 day/year, after hours testing options that puts client scheduling ahead of our own
- Results delivered per client preference: Email, online (secured), phone, in-person
- Needs-based troubleshooting, education, and product marketing resources - at no additional cost
- Competitive and affordable, based on individual needs – and not beyond – while providing all needed assurances
